Dear FCC:

My name is Latoya Middleton and I don't think that it is fair to raise the charges for cellular service. I also think that you should re-think your decision before changing the current policy. There is a reason that people choose prepaid service....because they can't afford regular cellular service. Your proposed \$1.00 per month will directly impact my ability to keep my current wireless service. Please don't penalize all wireless customers especially the ones who choose to have prepaid service. Keep this fair!
